

David Smith Provides Stairway to Heaven for Pottons New Show House

David Smith St Ives Limited were delighted to provide their long-standing client, Potton Ltd, with two bespoke staircases for installation within their beautiful show home at the new National Self Build and Renovation Centre in Swindon.

Potton the UK market leader in timber frame construction have helped thousands of self-builders fulfil their dreams and the Potton Show House built at the National Self Build and Renovation Centre provides a stunning example of what can be achieved by building a house from scratch and amazingly completing the entire process in just twelve weeks!

Working in partnership with Potton, David Smith designed and manufactured a main open riser type staircase and associated gallery for the show house, which was produced in American White Ash, with glass balustrade, portraying a dramatic, contemporary focal point within the hallway. A secondary closed riser type staircase was manufactured in Southern Yellow Pine.

David Smith have for many years been providing stairs to clients in the building industry, working in conjunction with architects, property developers, house builders, and self-builders. Produced with the latest technology and the skills of traditional craftsmen they can provide staircases using hardwood, softwood or a combination, with designs from the simple to something out of the ordinary.

With impressive design and manufacturing capabilities, David Smith can deliver large orders, as well as one-off, technically advanced timber products that fulfil the ever changing requirements of the building trade.

“We have been supplying our staircases to Potton for many years now, and we were of course delighted to be involved with their new Show House at Swindon. We look forward to continuing to supply our high performance, bespoke staircases into their superb range of timber frame houses”, commented Nick Wilkes, Staircase Manager of David Smith St Ives Ltd.
