

David Smith doorsets installed at 'state-of-the-art' new college

One of the UK's leading manufacturers of high performance door and doorsets were delighted to work alongside one of their regular clients, HBG Construction, to provide various doorsets for a modern new college facility in Birmingham.

Matthew Boulton College is located in the centre of Birmingham and offers an outstanding range of facilities in IT, media, business and health for 600 staff and 15,000 students from the local area, the West Midlands and the rest of the country as a whole. The site stands adjacent to the Aston University Campus, and is a truly inspirational new learning facility.

Working in conjunction with the project architects, David Smith St Ives Limited provided doorsets with high levels of acoustic insulation, fire resistance and durability which were specifically designed to meet the operational requirements of this demanding educational environment.

David Smith has been supplying their high quality doors and doorsets to the commercial, public, health, education and leisure sectors for over twenty years. Designed and produced at their manufacturing site in Cambridgeshire, they combine the latest technology and skills of traditional craftsmen to produce doorsets that deliver outstanding high levels of performance.

Along with a commitment to manufacturing performance led products, David Smith's management culture encourages an awareness and sensitivity to environmental issues and ensures that all of the appropriate environmental legislation is fully complied with, including the use of timber from only carefully managed forest areas and the implementation of high standards of environmental performance within their factory.

"We were pleased to once again team up with HBG Construction to provide our high performance doorsets for the new Matthew Boulton College. We have a large portfolio of successful installations within the education sector, so we were confident that we could fulfil the performance demands of this particular location with ease", said Paul Davey, Business Development Manager – Doorsets Division, David Smith St Ives Limited.
